

Creating Equitable and Accessible Outdoor Learning Opportunities for ALL Students

What lessons/programs do you do in the outdoors?

Posters
Vocabulary
Essays

science lessons, observations ,and group work

projects, labs, writing, posters

Horses
horsemanship
Riding
Rescue

Science,
math,
journaling,
folk tales,
asking
questions

science experiments
Questions
folktales around the fire

Nature Journaling
Math arrays,
number lines

Taking lessons outside
Using outdoor materials as math manipu
Journaling
Science experiences

I would love to hear
More about morning
meetings outdoors

asking questions based on nature observation..

Creating Equitable and Accessible Outdoor Learning Opportunities for ALL Students

Can you share examples or resources from your past outdoor experiences that focused on accessibility, belonging, inclusion, diversity, and equity? These can include both successful efforts and those that presented challenges.

Make sure all students can get to the learning area; students must know the expectations when they are outside; students need to work together take ownership of their own learning; be leaders

ensure all materials are ready and available

Creating Equitable and Accessible Outdoor Learning Opportunities for ALL Students

What plans or aspirations do you have for your outdoor spaces?
What have you already started or would like to start?

I am looking forward for the implementation of the outdoor spaces plans and projects in our school grounds creating better spaces for our students.

group work

SEL lessons and journals

implement also BOSQUE EDUCATION PROGRAM LESSONS

Having a binder accessible with lessons that connect to standards;
Grow more in our garden; find time for more outdoor activities;
